About Me

I have graduated from Islamic University of Technology (IUT) majoring in Computer Science & Engineering. I have been heavily involved in research since my undergraduate life. Apart from this, I have experience in Software Engineering, Software Quality Assurance as part of my work experience.

Education

Islamic University of Technology *B.Sc in Computer Science & Engineering* ***June 2021 – Oct 2025***

- CGPA: 3.70/4.00

Notre Dame College *Higher Secondary Certificate (HSC)* ***2018 – 2020***

- GPA: 5.00/5.00

Rajuk Uttara Model College *Secondary School Certificate (SSC)* ***2015 – 2018***

- GPA: 5.00/5.00

Publications

Enhancing Vision-Language Corruption Robustness using Cross-Distribution & Prompted Denoisers
S. S. Latif[*], S. Shiper[*], K. M. R. Kiran[*], M. F. Ishmam, M. A. Hossain, A. R. M. Kamal, M. H. Ashmafee.
WACV 2026 [Paper]

Research Interests

Vision Language Models, Visio-Linguistic Compositionality, VLM Robustness & Evaluation, VLM Interpretability, AI Evals

Work Experience

Software Quality Engineer *Oct 2025 - present*
Therap (BD) Ltd. *Banani, Dhaka*

- Acquired in-depth knowledge of the Therap domain, including its use cases, applications, and key stakeholders.
- Responsible for designing and executing test cases to identify software defects and performance issues.
- Collaborate closely with developers to validate bug fixes and ensure high product quality prior to release.
- Authored and maintained comprehensive test case documentation for the Therap Authentication module.
- Contributed to the test automation initiative by developing and reviewing Playwright-based automation frameworks in Java approximately reducing regression testing time by 60%.
- Work on AI Evals, formulate testing strategies etc

Technical Skills

- **Test Automation:** Playwright, Java, Page Component Object Model (PCOM)
- **Accessibility Testing:** JAWS, NVDA
- **API Testing:** Postman, cURL, REST APIs
- **Database & Version Control:** SQL, Bitbucket, Git
- **Security & Observability:** CrowdStrike Falcon LogScale, Security Event Analysis, CQL
- **ML/DL:** PyTorch, OpenCV, DeepInverse

Certifications

- Supervised Machine Learning: Regression and Classification
- Advanced Learning Algorithms
- Unsupervised Learning, Recommenders, Reinforcement Learning
- Deep Learning with PyTorch: Object Localization
- Convolutional Neural Networks
- Sequence Models

Extra

Junior Member in Programming team: *IUT Mars Rover-Team Avijatrik* *April 2022-Oct 2022*
